*baicapil*TM

Stimulates hair growth and prevents hair loss

- Hair loss is one of the main concerns regarding people's appearance.
- It has an emotional impact leading to a low self-esteem and other psychological effects.
- People with hair loss problems, look aged and unattractive.

*baicapil*TM is a synergic combination of three plants that fights hair loss with visible effects:

- Hair growth stimulation.
- Increase of hair density.
- Hair loss reduction.
- Recovery of a younger and healthier look.

*Composition and benefits of baicapil*TM

1. Scutellaria baicalensis:

- Source of baicalin, the active molecule.
- Protects against oxidative damage.
- Activates stem cells.
- Delays senescence.

2. Soy and Wheat Sprouts:

- Increase cell proliferation.
- Enhance the metabolic activity of the cells.

**THE HAIR FOLLICLE IS REVITALIZED AND FULL OF ENERGY
NEW UNISEX MECHANISM
RESULTS IN JUST 3 MONTHS**

In vivo efficacy

61 volunteers (men and women) with Mediterranean-caucasian hair, between 18 and 60 years old. Half of them applied a lotion with 3% of *baicapil*TM and the other half a lotion without active (placebo), during 6 months.

A/T ratio (anagen / telogen)

*baicapil*TM increases the A/T ratio, thus activating telogen follicles and extending the anagen phase.

HAIR GROWTH

Hair density

*baicapil*TM increases hair density up to 59.3%.

VOLUMISING EFFECT

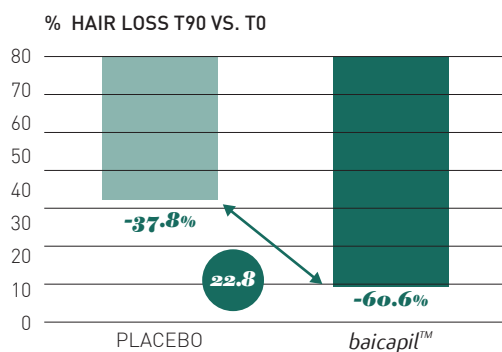

*baicapil*TM visibly increases hair density and thickness

Hair loss

After 3 months of *baicapil*TM application, hair loss has been reduced by a 60.6%.

ANTI-HAIR LOSS

*baicapil*TM significantly improves the quantity and quality of hair, reducing its loss

*baicapil*TM

Stimulates hair growth and prevents hair loss

cosmetic applications

- Anti-hair loss products
- Hair care lines: tonics, serums, conditioners, masks, shampoos, etc.
- Hair growth stimulants
